What is waki high potential therapy?
WHAT IS WK2076H - Waki Multi Functional High Potential Therapeutic Equipment

WAKi Worldwide have produced the product with Multi-function WK2076H WAKi Multi Functional High Potential Therapeutic Equipments integrated with High Potential Therapy, Negative Potential Therapy, Pen-High Potential Therapy and Optical Therapy. It not only faithfully plays a role of “family doctor”, but also creates a fresh and comfortable natural environment artificially by means of the up-to-date research achievement of electro-biology and enable us to do exercise while sitting.

WAKi High Potential Therapy Range High Potential Therapeutic Equipment, WAKi High Potential Therapy WK2076H, What is WK2079 – WAKi High Potential Therapeutic Equipment-WAKi Worldwide have produced the product with Multi-function WK2076H WAKi Multi Functional High Potential Therapeutic Equipments integrated with High Potential Therapy, Negative Potential Therapy, Pen-High Potential Therapy and Optical Therapy. It not only faithfully plays a role of “family doctor”, but also creates a fresh and comfortable natural environment artificially by means of the up-to-date research achievement of electro-biology and enable us to do exercise while sitting.

WAKi High Potential Therapy Range High Potential Therapy, Negative Potential Therapy, Pen-High Potential Therapy and Optical Therapy.

How waki high potential therapy work?
EFT is a simple, non-invasive technique using static electricity which produces fast demonstrable clinical results. The theory is that when an electric field with high voltage AC is applied on a human body, cells metabolism is stimulated by supplementing ions and the Acid-Base Balance of Electolyte in blood results adjusted.

The H+ flow of ions in the organism cars optimally be directed. This is important because beside others, the co-ordinates of enzyme, the Ca++ houseolds, tire proteins of transportation in the blood and the general acid-base-homeostasis depend on these flows of protons and ions.

Abnormal physiology is associated with abnormal electrical activity. Correcting the abnormal electrical activity facilitates restoration of normal physiology.

Electric Field Therapy apparatus apply safe levels of high AC voltage potential to the body and create an electrical field around it. This electric field stimulates the sensory receptors in the skin, which in turn stimulates the hypothalamus and other areas of the brain, to promote homeostatic functions. Also, the electric field generates minute amounts of induced current, which permeates the body and stimulates the metabolism.
Our body has active bio-electric in our inner body. When we use **WAKi Multi Functional High Potential Therapy**, our whole body will absorb energy electric from this equipment. Besides, our body will be surrounded by electricity’s platform and reflected to our surroundings. Energy electric is useful to reanimate membrane cell more than 200 types of cell in our body. Ion negative helps to repair weak cell.

**Suitable for people who want to live healthy:**
- Whole family who want to live healthy and better, stay away from disease.
- Children and school age student need to have high concentration in study and reduce fatigue.
- Elderly who want to live longer life, active and repair weak cell and stay away from disease.
- People who stay in city, full of air pollution, lacking fresh air, and stressful environment and work.
- People who work in office air-conditioned room, lacking fresh air and lack of
- People who lack of time to exercise regularly and routinely.
- Person that is less go to mountain area.

**Multi Functional - Partial Pen**
Old people saying: “pain means not smooth, smooth means not pain”. Partial pen therapy is to use partial pen to touch our body’s acupuncture points, you will feel like prodded by needle. Micro electric will flow into our body; the electric current will stimulate and dredge the meridians.
What waki high potential therapy indonesia price?

We are the waki high potential therapy indonesia, waki high potential therapy machine, supplier, manufacturer, if you need the info and price, please contact us.
